|--------|--|--|---|
| AM 1   | Personal Transformation                                      | Robert Pickerell                         | Before we can transform congregations systematically we have to first of all be transformed ourselves. Key leaders, including the pastor have to go through a period of transformation. The more individuals are changed spiritually the more the church will be. I am suggesting a wholistic approach of body, mind and spirit with others in body, mind and spirit. There must be unity and diversity in our transformation. Therefore this is not a top down, one person telling another "how to," but creating an environment in which we all share our gifts and together grow in our own transformation. At the end of the session, we will begin to identify areas of growth in our own personhood that the Spirit is giving to all of us.   |

Debbie Griffin, DOC minister at Jefferson Central Christian shares her free VBS curriculum with your church. Griffin wrote the curriculum as a partnership with Heifer International. "I was tired of re-writing VBS curriculum that was lacking in theological strength and creativity. The 'Two by Two' curriculum invites youth to change the world 'two by two', as Jesus did when he called the twelve and sent them out into ministry. (Mark 6:6-7) The purpose of the curriculum is to engage, enlighten, and empower young people; to inspire a growing faith and encourage social justice. The curriculum partners with Heifer International educational materials in an effort to support the world changing mission of Heifer International. Children and adults work together to "Fill the Ark" full of animals that will empower and improve the lives of struggling families around the world. |

Honoring the uniqueness of place invites congregations to sidestep the debilitating of envying the "church across town" and lamenting the shortcomings of current location; instead celebrating the uniqueness of one's setting for ministry as integral to the larger body of Christ. Like our founders we are learning what it means to be a priesthood of all believers where every part of the body fully participates in ministry, not just the paid clergy. To become intoxicated for Christ, traffickers of Grace and messengers of Mystery in our local community and world. World Cafe allowed this community to focus and come to consensus on what we believe God is calling us to do with our lives at this point in time. We believe you can have the traditional model of community (the one of our parents, grandparents, etc.) and adapt new models alongside that reach a new generation that aren't wired the same way to work in tandem together. We are doing it! |
