## Thresholds

*"Wherever you're at, whether you've felt stuck or on the verge of something new and wonderful, each moment—each of our days, in the choices we have before us to make—we are standing at a threshold. We are standing before doors of possibility and the good and beautiful life God has in store for us. Truth be told, God has opened wide a door for us, and it's a door that isn't about to be shut. God has traversed across the thin line between heaven and earth in Christ Jesus for us so that we might have a 'way through' in this life. This season, as we journey toward Easter, we are invited to reflect together about the THRESHOLDS of our lives and God's open invitation to cross into the life Jesus has prepared for us.*
